

## Arizona State Library-Sponsored Use of ProQuest Databases

During the fiscal year 2004-2005, use of the ProQuest databases provided by the Arizona State Library, Archives and Public Records increased by 302% from the previous year, with over 1.37 million searches conducted. Patrons using the services in libraries and through remote access downloaded 278,808 citations, abstracts, and full-text articles, representing a 168% increase.
